

Electrical Products Manufacturing

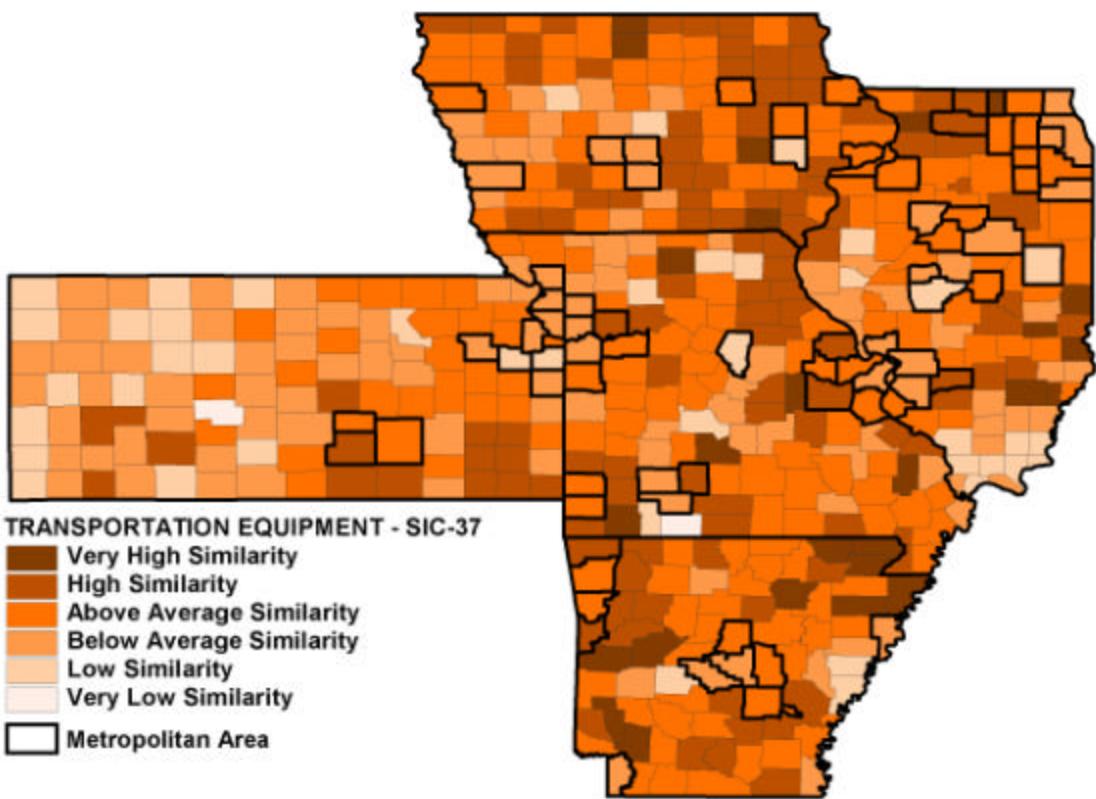

On average across the United States, the top five occupations demanded in this industry include:

Production Occupations	48.3%
Architecture & Engineering Occupations	14.3%
Office & Administrative Support Occupations	10.1%
Management Occupations	7.3%
Computer & Mathematics Occupations	4.3%

In Missouri 9 counties had high or very high similarity between national occupational industry demand and county occupational supply, where 8 counties had high similarity and 1 county had very high similarity. The top similarity counties were:

GASCONADE	FRANKLIN
LACLEDE	PETTIS
SULLIVAN	LINN
BARRY	BARTON
OSAGE	CARROLL

Transportation Equipment Manufacturing

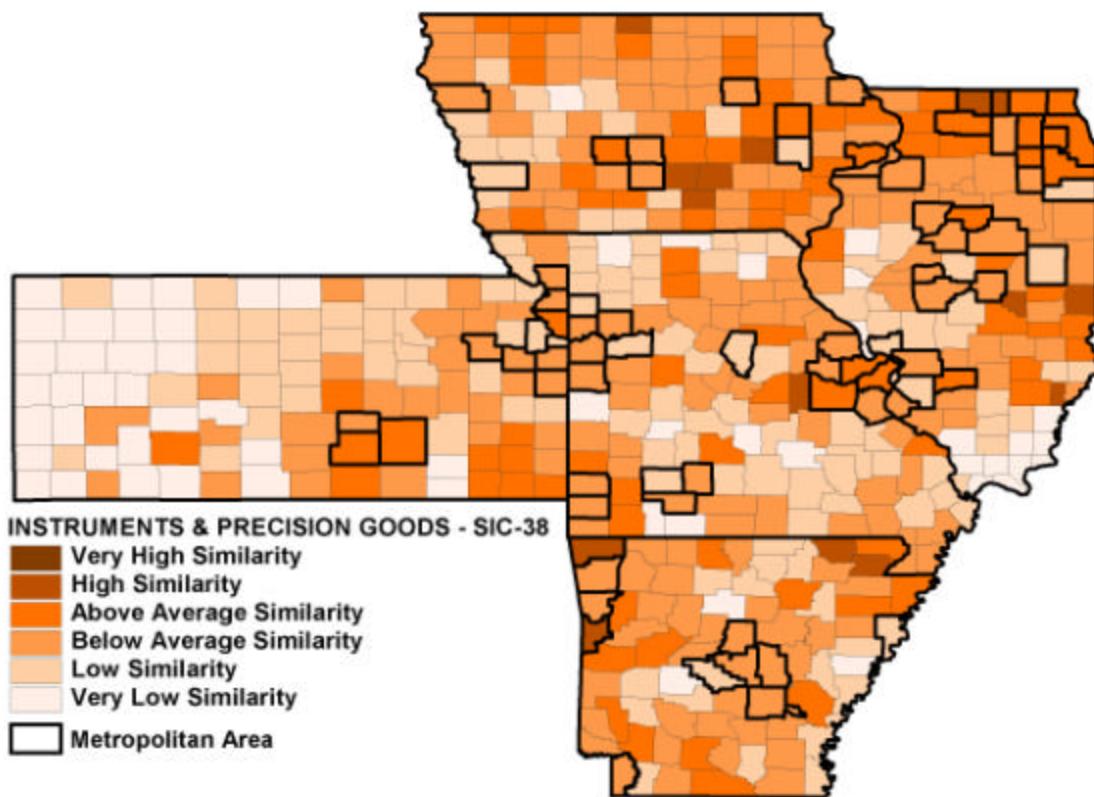

On average across the United States, the top five occupations demanded in this industry include:

Production Occupations	49.5%
Architecture & Engineering Occupations	12.6%
Office & Administrative Support Occupations	7.0%
Installation, Maintenance & Repair Occupations	6.7%
Business & Financial Occupations	5.6%

In Missouri 33 counties had high or very high similarity between national occupational industry demand and county occupational supply, where 28 counties had high similarity and 5 counties had very high similarity. The top similarity counties were:

GASCONADE	BARTON
LACLEDE	CRAWFORD
BARRY	FRANKLIN
SULLIVAN	OSAGE
BOLLINGER	PETTIS

Instruments & Precision Goods Manufacturing

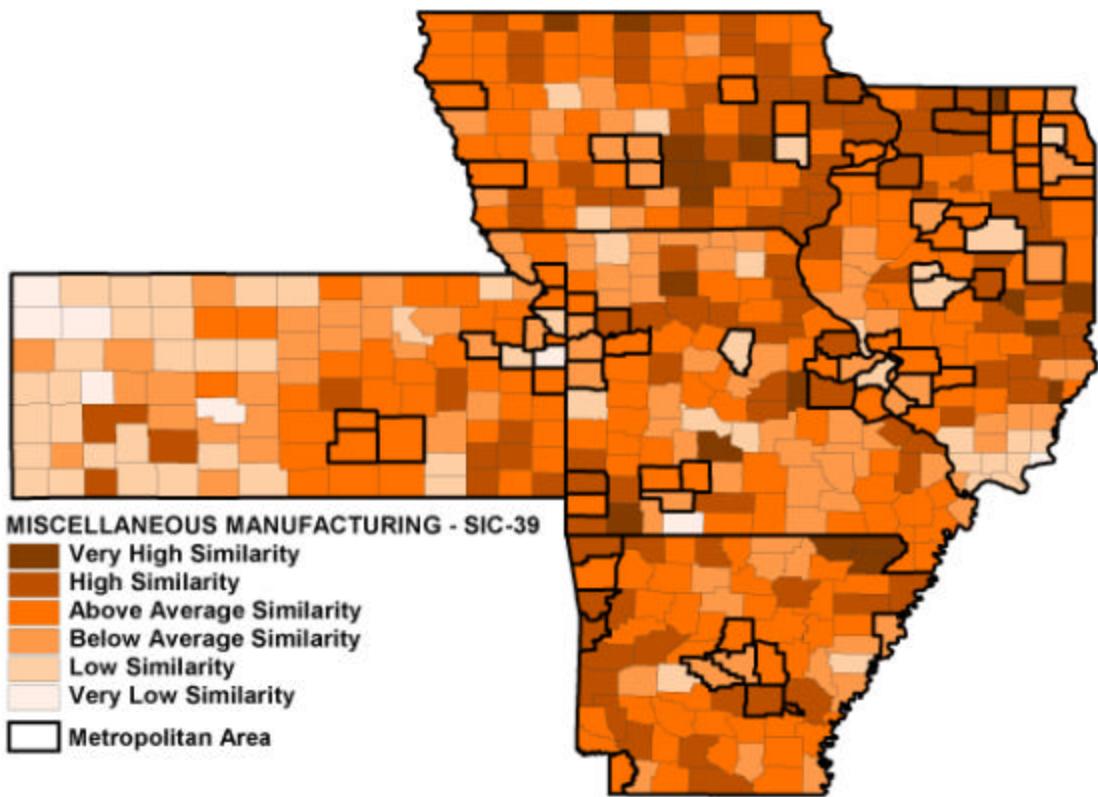

On average across the United States, the top five occupations demanded in this industry include:

Production Occupations	37.6%
Architecture & Engineering Occupations	16.7%
Office & Administrative Support Occupations	13.3%
Management Occupations	9.1%
Business & Financial Occupations	5.6%

In Missouri 1 county had high similarity between national occupational industry demand and county occupational supply. The top similarity county was:

GASCONADE

Miscellaneous Manufacturing

On average across the United States, the top five occupations demanded in this industry include:

Production Occupations	52.2%
Office & Administrative Support Occupations	15.3%
Transportation & Material Moving Occupations	7.8%
Management Occupations	6.5%
Sales Occupations	4.8%

In Missouri 26 counties had high or very high similarity between national occupational industry demand and county occupational supply, where 22 counties had high similarity and 4 counties had very high similarity. The top similarity counties were:

GASCONADE	SULLIVAN
LINN	BARTON
BARRY	FRANKLIN
LACLEDE	AUDRAIN
OSAGE	LEWIS

Summary

This analysis has provided indicators of the national competitiveness of a region's occupational base in the manufacturing industry in the central Midwest. Occupational similarity can be used by economic developers and policy officials in two ways. First, ranking the similarity scores within a region provides a form of industry targeting that indicates which industries are best suited to the occupational base in the region. Second, industries with high dissimilarity are identified so that programs can be developed which strengthen the labor force in the region in order to make the area more attractive to selected industries.

In general, the occupational base in most Missouri communities is highly similar to the food, textiles, apparel, lumber, wood, rubber, plastics, stone, clay, glass, concrete and primary metals manufacturing industries. This indicates that many Missouri communities have a national competitive advantage in terms of labor for these industries. Therefore, communities can use this information to recruit these types of firms, emphasizing the compatibility and availability of their labor force to that firm's needs.

Conversely, the occupational base in most Missouri communities is highly dissimilar to the printing, publishing, chemicals, machinery, computers, electrical products and instruments manufacturing industries. This indicates that many Missouri communities do not have the needed labor required to support these industries. Therefore, communities can use this information to craft education and training programs to develop specific segments of the labor force.

Appendix 1 - County Names

Appendix 2 - Occupational Similarity Index Data Tables
